Protecting and Restoring America's Watersheds

Status, Trends, and Initiatives in Watershed Management

Acknowledgements

An interagency team developed this report with input from multiple stakeholders. The following agencies wished to be recognized for their contributions:

United States Department of Commerce
 National Oceanic and Atmospheric Administration
 National Ocean Service
 National Marine Fisheries Service
United States Department of Defense
 Army Corps of Engineers
United States Department of Energy
United States Environmental Protection Agency
United States Department of the Interior
 Bureau of Land Management
 Office of Surface Mining
 United States Bureau of Reclamation
 United States Fish and Wildlife Service
 United States Geological Survey
United States Department of Justice
Tennessee Valley Authority
United States Department of Transportation
 Federal Highway Administration

Many stakeholders contributed information and analyses to the report: citizens participating in watershed management at the local level; state, tribal, and federal government personnel; academic evaluators; and non-profit institutions. This report has not been formally approved by all of the above agencies and stakeholders, and hence the contents of this report do not necessarily represent the views and policies of all contributors.

Contents

Introduction	5	What Can be Done to Improve Progress?	38
Why Watersheds?	9	Education and Awareness	38
What is a Watershed?	9	Partnerships and Coordination	39
What is the Watershed Approach and		Monitoring and Research	40
Why are We Using It?	10	Planning and Prioritization	41
Watershed Protection and Restoration	10	Funding and Technical Assistance	42
Addressing Watershed Problems	11	Implementation	43
		Evaluation	43
How Are Watersheds Impaired?	12	Conclusion	45
The National View	13	The Watershed Approach	45
Habitat Loss and Modification	14	Local Leadership and Engagement	46
Water Quantity and Flow Modification	15	Governmental Collaboration and Support	46
Chemical Pollutants	15	Websites and Resources	47
Nutrients	16	Glossary	49
Sediments	17	References	53
Pathogens	17	Credits	55
Invasive Species	18		
Thermal Modification	19		
What Can be Done to Address These Problems? ...	19		
How is the Watershed Approach Working?	20		
Seven Themes of Watershed Management	21		
Education and Awareness	21		
Partnerships and Coordination	23		
Monitoring and Research	26		
Planning and Prioritization	28		
Funding and Technical Assistance	31		
Implementation	34		
Evaluation	36
